Neuropathology is the study of diseases of the nervous system, and typically includes the laboratory analysis of tissue samples for personalized diagnosis or forensic investigations. **Neuropathologists** are the physicians/scientists who make these diagnoses and conduct research in this field; common areas of study are brain tumors, Alzheimer disease and related neurodegenerative disorders, stroke and related cerebrovascular disorders, cerebral palsy and other developmental disorders of the brain, and the pathobiology of nerve and muscle diseases, such as the muscular dystrophies and neuropathies.

The **AANP (American Association of Neuropathologists, Inc.)** is a professional organization of and for neuropathologists, and has nearly 800 members from around the world. The AANP's purpose is to advance the science, teaching and training of the diseases of the nervous system and the practice of neuropathology.

The official journal of the AANP is the [Journal of Neuropathology and Experimental Neurology \(JNEN\)](#). JNEN is published by Oxford University Press, and is one of the premier neuroscience journals in the world.

Our **Annual Meeting** typically occurs in June. There is a one-day **Special Course** on a selected topic of special interest or recent advances, two days of scientific sessions (platform and poster presentations) in which members and guests present original research, an evening **Diagnostic Slide Session** with discussion of complex diagnostic problems in neuropathology, and a half-day **Presidential Symposium**. The annual meeting has been approved by the Accreditation Council for Continuing Medical Education for category 1 CME on an hour-per-hour basis, and SAM's are available for certain educational content.

Become A Member

We encourage physicians and scientists from all disciplines to become members. AANP Membership is divided into **Affiliate** and **Active** categories with annual dues of \$175 and \$350, respectively.

Membership privileges include, among others, a yearly subscription to the **Journal of Neuropathology & Experimental Neurology (JNEN)** and reduced registration fee to the annual meeting.

Announcements

DSS Cases have been selected for the 2017 Annual Meeting. The Glass Slide Set order deadline is **March 5, 2017**. Orders will not be honored after this date. Order your Glass Slide set via the meeting registration page [here](#).

Early-Bird Registration for the 93rd Annual Meeting ends **February 28, 2017**,

and registration fees will subsequently increase; however, registration can take place up through the Annual Meeting.

There are **6 travel awards for trainees**, as well as **4 ISN travel awards for neuropathologists/neuroscientists under the age of 40 from low-middle income country**. Don't forget to check the box for travel awards with your abstract submission.

The abstract submission website for AANP's 93rd Annual Meeting is now available! Click [here](#) to submit an abstract.

The American Academy of Ophthalmology is currently sharing the **Ophthalmic Pathology Atlas** with the public. Create a login and access incredible whole slide images!

The **First North American Workshop on Neuropathology and Epilepsy Surgery** will meet April 27-30, 2017, in Cleveland, OH.

2016 Diagnostic Slide Session presentations are online!
